THE TENTH NATHAN KAUFMAN VISITING LECTURER

SUSAN DONE

FCCMG, FRCPath, PhD, MBA, MRCPPath, FRCPC, MB. B.Chir.,
Associate Professor, Department of Laboratory Medicine and
Pathobiology, University of Toronto
Pathologist and Researcher, UHN

"NOT ALL BREAST CANCER CELLS ARE CREATED EQUAL"

Tuesday, October 22, 2019
4:00 pm

Room 104, Richardson Laboratory
88 Stuart Street, Queen's University

**Kingston Health
Sciences Centre**

Centre des sciences de
la santé de Kingston

Sponsored by

The Nathan Kaufman Lectureship and Visiting Speaker Trust Fund
The Department of Pathology and Molecular Medicine and Queen's University

Dr. Susan Done

FCCMG, FRCPath, PhD, MBA, MRCPPath, FRCPC, MB. B.Chir.

Dr. Susan Done is a breast pathologist at the University Health Network and Associate Professor in the Department of Laboratory Medicine and Pathobiology at the University of Toronto. She is currently Director of the Anatomical Pathology Residency Program at the University of Toronto. After completing medical school at the University of Cambridge she trained in pathology in Calgary and then obtained MBA and PhD degrees during her Fellowship in Molecular Pathology at the University of Toronto. Her research is focussed on understanding breast cancer, intratumoural heterogeneity, circulating tumour cells, biomarkers and early events in invasion and metastasis.

Dr. Nathan Kaufman

Nathan Kaufman was born in Lachine, Quebec and educated at McGill University, graduating with a medical degree in 1941. He interned at the Royal Victoria Hospital and then served as a Medical Officer to a tank battalion in Western Europe and was honoured with a MBE. After 18 months as a pathology resident at the Jewish General in Montreal he moved with his wife Rita to the Cleveland Metropolitan General Hospital to complete his residency. He then joined the Faculty at Case Western and embarked on a successful career in iron metabolism research, medical education and laboratory administration. In 1967, after 7 years as a Professor at Duke University, he was recruited by Dean Harry Botterell to succeed Bob More as the Head of Pathology at Queen's.

His accomplishments at Queen's were numerous. They included the development of the NCIC Cancer Research Unit, recruitment and nurturing of many current senior faculty, distinguished service to senior committees of the Hospital, University and the MRC (now CIHR), and expansion of our research capability and residency program. During his 12 years at Queen's, Dr. Kaufman became recognized internationally for his distinguished leadership as Editor of Laboratory Investigation, President of the US-Canadian Academy of Pathology and the International Academy of Pathology. On leaving Queen's he moved to Augusta as the first full-time Secretary/Treasurer of the USCAP. He has been recognized by the USCAP for his numerous contributions, most recently with the establishment of the annual Nathan Kaufman Timely Topics Lecture.

Through this lectureship the Department honours Nathan Kaufman's extraordinary influence in shaping the scholarly life of our department and his contribution to our specialty internationally.

PREVIOUS KAUFMAN LECTURERS

- 2017 Janis Taube, Director of Dermatopathology Division and Fellowship at Johns Hopkins University School of Medicine
- 2015 John Bartlett, Director, Transformative Pathology, Ontario Institute for Cancer Research (OICR), Toronto, ON Honorary Professor, College of Medicine and Veterinary Medicine, The University of Edinburgh, Scotland, UK
- 2013 Randy Gascoyne, University of British Columbia, BC Cancer Agency and BC Cancer Research Centre, Vancouver, BC
- 2011 Thomas Hudson, President and Scientific Director, The Ontario Institute for Cancer Research, Toronto, ON
- 2006 David Huntsman, University of British Columbia and the BC Cancer Agency, Vancouver
- 2004 Dietrich Keppler, German Cancer Centre and University of Heidelberg, Heidelberg, Germany
- 2003 Ulf Lindahl, Uppsala University, Uppsala, Sweden
- 2002 Janet Rossant, Samuel Lunenfeld Research Institute, Mount Sinai Hospital, Toronto
- 2000 Errol Friedberg, Southwestern Medical School, TX
